La Storia - The History

PROFESSIONALITA' ED ESPERIENZA AL SERVIZIO DELLA CLIENTELA

L'arte decorativa ha una storia millenaria; le prime espressioni del pensiero umano si sono manifestate nell'età preistorica, dove l'uomo ornava le pareti delle caverne con scene di vita quotidiana, ma con il passare del tempo si andavano delineando i caratteri che permettevano di dare un nome ai diversi stili che l'arte assumeva nelle rispettive epoche (classicismo, neoclassicismo, barocco, ecc...). In questi ultimi anni, invece, la ricerca creativa, seppur animata da grande fervore, tarda ad esprimersi nell'invenzione di uno stile dai caratteri ben definiti. Chi progetta oggi, comunque, ha a disposizione numerosi spunti cercando di far rivivere le epoche e i modelli del passato, inserendoli nel multiforme panorama estetico dei nostri giorni, dove la rivisitazione eclettica diventa momento fondamentale dell'invenzione. Lo Stucchificio Torinese grazie a questa rivisitazione, ai cinquant'anni di esperienza, alla stretta collaborazione con i designer e architetti specializzati nella progettazione dei nostri articoli in maniera tale da renderli al top sia nel design che nella qualità, offre questo viaggio nel passato mescolandolo con il presente. Attraverso questo catalogo siamo lieti di proporre la nostra grande collezione di decori e stucchi ornamentali, di elevato prestigio estetico, destinati alla decorazione di interni ed esterni, cercando di rendere più accogliente una qualsiasi residenza. Da queste illustrazioni potrete vedere l'interesse che abbiamo di proporre la tradizione antica dell'arte grazie ad un'accurata capacità professionale di realizzare volte a crociera, volte a padiglione, archi a tutto sesto, a sesto ribassato, sesto acuto, colonne doriche, ioniche e corinzie richiamando così le armonie classiche conquistate nel tempo. L'impiego di materie prime di alta qualità, unita a stampi tecnicamente rigorosi conferiscono ai nostri prodotti accuratezza e nello stile e nell'incisione dei particolari, soddisfacendo così tutte le vostre esigenze e gusti, ampliati dalla grande produzione di qualsiasi genere di decorazioni su richiesta, in gesso e in altre miscele, dando così una grande importanza nel settore.

PROFESSIONALS AND EXPERIENCE FOR OUR CUSTOMERS

Decorative arts have a millenary history. The first expressions of human thought came to light during the prehistoric age when men used to embellish the walls of caves with everyday life scenes. Throughout the centuries many other characteristics slowly took shape that enabled several styles to be named after the related period, such as classicism, neoclassicism, baroque and so on. Whereas in recent years, creative research, even though driven by great fervour, has taken much time to invent new styles with well defined traits. Nowadays those who design, plan or decorate have numerous ideas to which they can be inspired to try to revive the age and the model of the past, by introducing them into the current varied aesthetic panorama, and making this eclectic reappraisal a fundamental key of invention. Stucchificio Torinese, thanks to this revisiting, with fifty-year-old experience and its close cooperation with designers and architects who are specialized in making our items the best both in quality and in design, offers the opportunity to explore the past by mixing with the present. We take particularly pride in showing you our large collection of highly aesthetic decorations and stuccos, both meant for interior design. The pictures illustrate our interest in the classical craftsmanship with cross vaults, pavilion roofs, Roman, depressed and lancet arches, Doric and Corinthian columns. The use of first quality raw materials as well as technically professional casts and a large production of any kind of decorations in plaster or other mixtures on request will fulfil our customers' expectations as for taste, flexibility and faithfulness in details.

Tradizione artigianale quindi anche tecnologia, sviluppo e ricerca, per soddisfare il mercato moderno offrendo soluzioni decorative di alto design, nel rispetto di un grande patrimonio di valori. Le tecniche sviluppate permettono di ottenere stucchi in gesso di qualità; come: angolari, bassorilievi, colonne, cornici, cornici decorate, diffusori, elementi porta luce, fregi, gusci, lesene, rosoni, sopraporta.

Realizzazione su misura

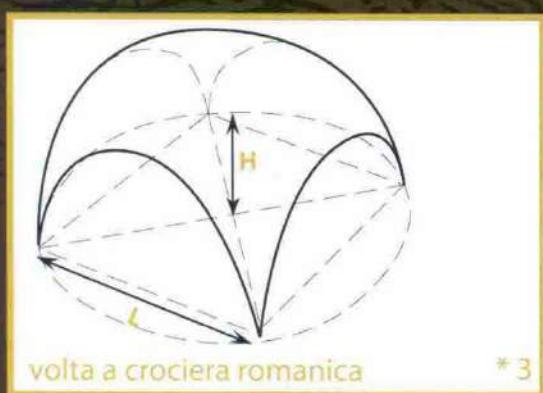

Le diverse esigenze architettoniche o vincoli strutturali, preesistenti possono richiedere interventi particolari, per realizzazioni su misura. In questo caso, personale specializzato sarà in grado di sviluppare e risolvere le diverse problematiche sulla base delle singole esigenze, partendo dallo sviluppo del prototipo fino alla realizzazione definitiva. Allo stesso modo siamo in grado di realizzare rifacimenti e restauri, direttamente dai campioni forniti dalla clientela; partendo dagli stessi vengono realizzati gli stampi che serviranno per riprodurre perfettamente l'originale.

Come eseguire il montaggio di una cornice in gesso

Molti credono che posizionare degli stucchi o delle cornici in gesso sia estremamente difficile. In realtà gli sviluppi della tecnica, la ricerca di gesso e composti particolari capaci di aumentare la robustezza e la compattezza del prodotto finale, come l'adozione dei processi costruttivi diversificati fanno sì che eseguire il montaggio di stucchi e cornici in gesso sia ormai una operazione estremamente facile.

Istruzione per il montaggio:

1. Innanzi tutto riquadrare la stanza dove andrà installata la cornice in gesso segnando l'altezza della cornice per tutto il perimetro. Preparare del collante, anch'esso di nostra produzione, che dovrà essere applicato sulla parete e sulle cornici spolverando delle quantità dello stesso in un recipiente pulito, ottenendo una pasta collosa a presa lenta.

2. Asportare con cura dalla parete ogni strato di vecchia vernice, carte da parati o pittura esistente, contemporaneamente, graffiare il retro della cornice al fine di facilitare la penetrazione del collante al suo interno. Partendo da un angolo effettuare i tagli a 45 gradi delle cornici utilizzate.

3. Bagnare gli elementi da posare che risulteranno così meno rigidi ed applicare del collante uniformemente sul dorso della cornice e sulla testa. Posizionare la cornice facendo pressione uniformemente su tutta la superficie della stessa per qualche secondo facendo fuoriuscire il collante in eccesso, la cornice rimarrà poi in posizione grazie al collante. Per cornici particolarmente grandi, posizionare dei chiodini a sostegno.

4. Una volta terminata la posa delle cornici effettuare un'ulteriore stuccatura

delle stesse con particolare attenzione alle giunzioni, seguendo il perimetro della stanza. E' importante eseguire con accuratezza questo passaggio in quanto molta della resa finale visiva dipenderà dalla stuccatura di angoli e giunzioni.

5. A questo punto tinteggiare le cornici con una vernice lavabile bianca. Per far risaltare meglio lo stucco, tinteggiare le pareti con tecniche particolari come lo spatolato, lo spugnato, ecc..., questo permette di creare uno stacco visivo fra soffitto e pareti tale da porre in risalto le cornici stesse. In generale per gli accostamenti di colore o per eseguire tecniche come quelle sopra citate, si consiglia sempre di eseguire delle opportune prove prima di passare alla decorazione della stanza.
